## DISPLAY STAND ASSEMBLY INSTRUCTIONS

### Pieces

2 x trays, 2 x side panels, 1 x clear back frame, 1 x header board  
(Note: colour of stand and headboard may vary)

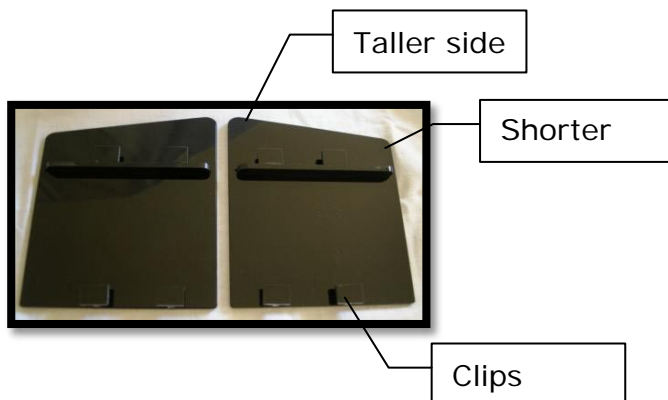

### Assembly Instructions

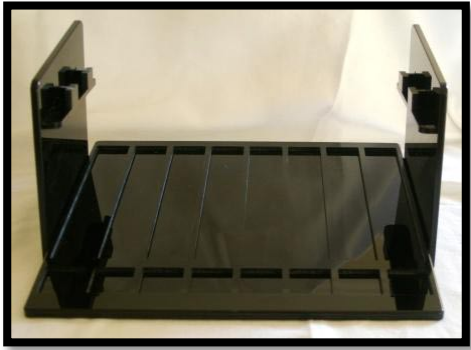

1. Place one of the trays in front of you.

2. Attach a side panel to each side of the tray. This is done by sliding the clip of the side panel into the slot of the tray.

*Note that the taller side of the panel faces the back of the display stand and the shorter side of the panel faces the front of the display stand.*

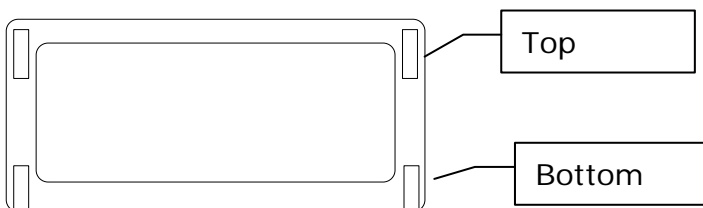

3. Attach the top tray to the side panels. Again this is done by sliding the clip of the side panel into the slot of the tray.

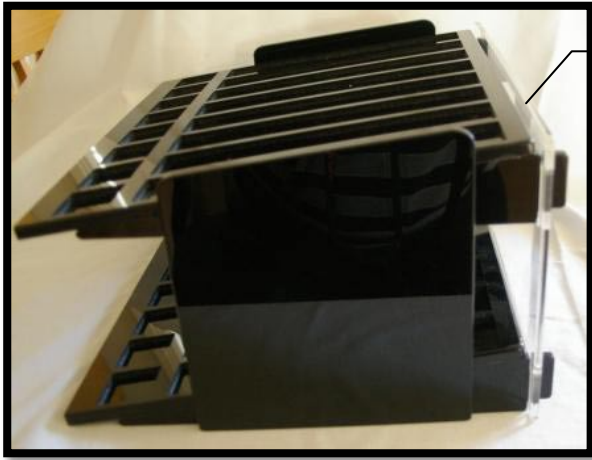

4. Slide the clear bracket onto the back hooks of the display stand. This is done by sliding the bottom of the bracket behind the tray hooks and then click the top of the bracket behind the top tray hooks.

*This bracket is to steady the display stand and hold the header board in place.*

5. Insert the header board into the gap between the top tray and the bracket. Push the header board down so it is tight.

Insert  
header  
board into  
this gap

6. Fill the display stand with product according to the attached planogram.

**CONGRATULATIONS, YOUR DISPLAY STAND IS NOW ASSEMBLED.**
